“ I knew Dwayne for around 25 years. He knew all 3 of children since they were babies. He knew every serious boyfriend I ever had. Although not at first but as soon as he would find out I was with somebody new he would make it a point to get to know them because he was my friend and he wanted to be around me and be a part of my life. He was one of the most kind and gentlest people I've ever had pleasure to call my friend and he was my friend. Years could pass without seeing him but the moment that I did it was like he was never away. He was always trying to help others and make them happy even if that ment him going without. I miss his face lighting up with his beautiful eyes and his bright smile. There's definitely an empty void without him. I love you Dwayne. My friend till the end

“ Duane was my Step Dad. He was a very big part of my life for almost 20 years and I know that some parts of my personality are 100% a result of his influence on my life. He introduced me to my favorite band of all time and our endless talks about nothing and everything will always be a favorite memory of mine.
