“ *Jeanne was a wonderful friend to my late mother Mary MacPherson of Calgary, Alberta, Canada. She was a very special person and loved dearly by our family. I loved her sense of humour and always appreciated her visits back to Calgary. Sending hugs to Don and the rest of her family.*

“ *There is an empty space in my heart, as I have lost a wonderful friend. But there are beautiful memories of times together that I cherish. Like when we were all living in Florida and got together for Sunday morning breakfasts or evening walks around the park. Those were the “good ole days”*
